

## Conference

# Future of Urban Mobility in the Context of Societal Challenges

**Date:**

19 October 2022, 9 am – 5 pm

**Place:**

Prague, Ministry of Transport of the Czech Republic, nábr. Ludvíka Svobody 1222/12, Meeting room

The objective of the conference is to present and discuss options for further development of sustainable mobility in cities in light of new societal challenges (health, safety, energy, environmental, etc.).

The conference will present research results coming from analyses of unique data obtained as part of the projects “Travel behaviour changes caused by COVID-19 and their societal impacts” (supported by the Czech Technological agency) and “Smart City – Smart Region – Smart Community” (supported from OP VVV). It will present results of analyses of data from repeated mobility surveys among urban citizens during the whole COVID-19 period and discuss long-term impacts of the pandemic on travel behaviour of households. Besides, the conference will discuss experience of institutions in charge of organizing and developing city-level transport systems. Top international experts on sustainable mobility will complete the picture with international context and experience.

## Agenda:

9.00 – 9.30 Registration of participants and coffee

9.30 – 9.45 **Welcome to participants by representatives of UJEP and MoT CR - doc. Jan Slavík (UJEP), Ing. Vít Sedmidubský (MD ČR)**
